Whether you are looking to elevate the look of a residential property, meet the performance needs of a commercial property, or preserve the look of a historical property, EcoStar offers the right tile.

- **Majestic Slate** - EcoStar's original eco-friendly tile, made of 80% recycled material, meeting the needs of most residential applications.
- **Empire Slate** - The same slate look with additional energy-saving benefits and design features that meet the needs of commercial and historical properties.
- **Niagara Slate** - Available in both Majestic and Empire formulas, Niagara Slate is our largest, thickest tile for maximum aesthetic appeal.
