

Why EcoStar™?

There are many reasons to choose EcoStar™ over other synthetic roofing tiles. What makes EcoStar shine above the competition?

- EcoStar tiles are the **ONLY tiles on the market that are made from up to 80% recycled rubber and plastic** - truly an environmentally friendly product!
- EcoStar has a record of success of over 20-years on roofs throughout the U.S. while other manufacturers have only been in existence a fraction of that time.
