

50-Year EcoStar Limited Material Warranty

Subject to the terms, conditions, and limitations stated below, EcoStar LLC ("EcoStar") warrants that EcoStar's Products ("Products") are free from manufacturing defects at the time of sale to the owner. EcoStar further warrants that, when properly installed in accordance with EcoStar's Installation Guide, the Products will be free from defects under normal use for a period of fifty (50) years from the date of receipt of the attached registration application or of the date of completion of installation, whichever is earlier. This Limited Material Warranty does not apply to materials not sold by EcoStar nor does it cover any labor costs or other elements of a construction project, unless specifically stated to the contrary herein. The useful life of a given Product may be affected by many factors including: the weather conditions to which it is exposed; the quality of its installation; the type and quality of the construction, including the roof decking, framing and ventilation; and other factors over which EcoStar has no control. This Limited Material Warranty describes the remedies in the event that the Products are found to be defective in material or manufacturing workmanship affecting performance during the stated warranty period. Any limited warranty does not assure that the covered products will in reality last the entire length of the stated warranty period. A "leak" does not constitute a defect under the terms of this warranty.

TERMS, CONDITIONS, LIMITATIONS

1. To file a claim under this Limited Material Warranty, the building owner ("Owner") must, within thirty (30) days of the discovery of a defect, send a written notification of the alleged defect together with a copy of this warranty and proof of purchase of the Products (the "Claim") to:

EcoStar Technical and Warranty Services

2. EcoStar shall review the completed claim within a reasonable amount of time from receipt of the completed Claim. EcoStar may ask for samples of the Products and photographs showing the extent of the defect. The Owner, at its sole expense, is responsible for providing samples, and any other materials reasonably requested by EcoStar. The Owner shall allow reasonable time for investigation by EcoStar and laboratory testing of the suspected defective Products. Any Claim for reimbursement of tiles which have been replaced prior to EcoStar's receipt of the Claim and an on-site inspection by EcoStar, shall be denied. If the investigation reveals manufacturing defects covered by this Limited Material Warranty, EcoStar will provide, within a reasonable period of time, a remedy in accordance with the conditions contained herein.

3. This Limited Material Warranty is the sole and exclusive remedy provided to the Owner with regard to the Products. In the event that any Product is found to contain defects which affect performance, EcoStar, at its sole option, shall either (i) supply new product only OR (ii) pay the reasonable cost for replacement Products, only, of a similar design. EcoStar's obligations hereunder shall be prorated as set forth in paragraph 4, below. Costs for labor, tear-off, disposal charges, flashing, metal work, underlayment, and other costs or materials incurred during repair or replacement of the roof are not covered by this Limited Material Warranty. This Limited Material Warranty is not transferable.

4. After the first year of this Limited Material Warranty, EcoStar will pay a percentage of the reasonable replacement cost of the Products, described above, which will be calculated by dividing the number of months remaining in the warranty period by the number of months in the original warranty period.

This Warranty shall not cover any variations in sheen, gloss or color differences in any replacement Products. The Product will weather over time and EcoStar does not warrant that replacement Product will match any previously installed Product.

5. This Limited Material Warranty shall not be applicable if EcoStar determines that any of the following has occurred:

- The Products are damaged by natural disasters, including but not limited to, lightning, fire, hail, earthquake, mudslides, tornado, and hurricanes; or
