

Wide Range Color Blends

EcoStar is actively removing the “Wide Range” label from our ordering system. We have had too many customers place orders expecting Wide Range variation using the standard product number without including the Wide Range designation. As a result, we have renamed our most popular Wide Range colors. Product labels will reflect the new color names and not reference Wide Range. Note, the Wide Range descriptor will remain in the extended product description on the Order Acknowledgement.

Summit Blend – Wide Range Driftwood

Sierra Blend – Wide Range Dark Driftwood

Wood Trail Blend – Wide Range Chestnut Brown

Forest Blend – Wide Range Earth Green

Stormy Gray Blend – Wide Range Midnight Gray

Twilight Blend – Wide Range Federal Gray

Winter Blend – Wide Range Smoke Gray

Pine Ridge Blend – Wide Range Sage Green

Canyon Blend – Wide Range Terra Cotta and Stone Red

Fresh Cut Cedar – Wide Range Cedar (marbled)

You can see these listed on page 20 in the “Wide Range” Section of our Product Showcase Brochure.
